OFFICIAL NEWSLETTER OF THE NEW YORK COUNTIES REGISTERED NURSES ASSOCIATION, DISTRICT 13 NYSNA

MARCH-APRIL 2008 VOL. 2007 NO.4 What you need to know

Dear Colleague:

The New York Counties Registered Nurses Association (NYCRNA), District 13, of the New York State Nurses Association, will be hosting an important program, "Educational Advancement of the Nursing Profession," on March 18, 2008. The program will be held at the Bellevue Hospital Center 12th Floor Conference Room from 5 – 8 pm and includes a "light dinner."

Legislation A2480 and S0294 were re-introduced in the 2007 New York State Legislature. Both require future registered nurses to attain bachelor's degrees in nursing within ten years of initial licensure in order to continue to practice nursing in New York. Nursing must assume responsibility for maintaining the profession at a level required to assure quality care to the citizens of New York.

The faculty for the program includes: Barbara Zittel, PhD., RN Executive Secretary, New York State Board for Nursing; Claire Murray, MPA, RN Executive Director, NY-ONE; Candy Dato, PhD., RN, NPP Coordinator, Baccalaureate Program in Nursing NYC College of Technology, CUNY.

It is of prime importance to understand that this future action will not affect any currently practicing RN in New York or anyone enrolled in an educational program toward RN licensure at the time the bill is passed.

Join us to learn about the proposed change. This is an exciting and challenging time for the nursing profession in New York State!

Registration is required; copies of the form are permissible. Seating is limited to 150 persons. Please encourage your staff, students and colleagues to attend.

Sincerely,
Rosa Parris, President

It can also provide you the opportunity to learn something new, make new friends, and share your skills with others. Imagine all of these great benefits along with helping to change the world! If you have thought about volunteering, but weren’t sure where to look, Retired Senior Volunteer Program (RSVP) may be just the program for you.

RSVP matches the skills and interests of older Americans with opportunities to serve their community. RSVP volunteers choose how and where they want to serve – from a few hours to more than 40 hours a week. RSVP volunteers provide hundreds of community services, such as:

- Mentoring a troubled child
- Teaching adults to read
- Conducting tours at museums
- Providing counsel to new business owners
- Helping children in after-school programs
- Conducting friendly visits to homebound senior citizens
- Providing administrative assistance in hospitals and other nonprofit agencies
- ...and so much more.

To volunteer for RSVP you must be at least 55 years of age. RSVP is located in all 50 states. To find an RSVP office near you, please go to www.seniorcorps.gov and choose RSVP under the section titled “Our Programs.” You can also call your local Department of Aging office.

LUMP-SUM DISTRIBUTIONS

The Wrong Decision Could Be Costly

By Yvonne Y. Russell, MBA

Whether it is time to enjoy your retirement or tackle a new career; be sure to carefully weigh your lump-sum distribution options. Depending upon your age and the amount of your distribution, you could be subject to a number of taxes and penalties.

If you are retiring or changing career it's time to decide what to do with the funds in your 401(k) or other type of employer-sponsored qualified retirement plan. Your decision on how to receive your qualified plan distribution does have real life consequences that can mean the difference between living a comfortable retirement or wondering if your savings will last. Naturally, you want to protect what you've accumulated during your years of hard work.

There are a number of options available. Unfortunately, your distribution could be subject to a variety of taxes and penalties.

If for some reason you have already received your lump-sum distribution, minus the 20% withholding tax, all may not be lost. You have 60 days from the date you receive your payout to invest these funds into an IRA or qualified plan. When you file your income tax return, you will receive credit for the 20% withheld. But remember, you only have 60 days to do this. If you fail to act, your entire payout will be subject to state and federal income taxes, and its tax-deferred status will be lost forever.

State and Federal income taxes will take a "bite" out of your distribution.

Arguably, the most devastating tax problem is the mandatory 20% federal income withholding tax that is applied to eligible rollover distributions. If you elect to receive a check directly from your employer, you will only receive 80% of your distribution. In essence, if you expect to receive a check for \$100,000, your employer will withhold 20% or \$20,000, and send you a check for \$80,000.

If these taxes aren't bad enough, a 10% early withdrawal tax (also known as a premature distribution penalty) may be imposed on the entire distribution if you are under 59 1/2, unless the withdrawal is due to death or disability or taken in substantially equal periodic payments. Certain other exceptions may apply.

One way to avoid the 20% mandatory withholding tax, as well as current income taxes, is to directly rollover your qualified distribution.

If you are 59 1/2 or older you may qualify to receive income payments to help supplement your current income.

FOR MORE INFORMATION ON HOW YOU CAN AVOID SOME OF THESE TAXES, PLEASE CALL:
