

New York State Nurses Association at Bronx Care Health Center Bargaining Update

OVER 200 NURSES PICKET TO DEMAND SAFE STAFFING!

Great News!!!! On February 13th, thirteen hospital sites representing over 13,000 NYSNA nurses engaged in informational picketing for safe staffing. At Bronx Care Health system, over 200 nurses came out in front of the Grand Concourse campus to demand dignity and respect as we fight to provide safe patient care.

On March 5th, 2019 negotiations continued as we spoke about Safe Patient Handling and Workplace violence. Challenges nurses have been facing each and every day. Management will not negotiate any economics within the contract until non-economics are agreed and settled. We continue to strengthen our solidarity and onwards with the fight!

Show up at bargaining on **March 26th, Tuesday at 10:00 AM** and Sign up and get on the bus to Albany on **April 2nd!**

In Solidarity,
