

New York State Nurses Association at Bronx Care Health Center Bargaining Update

Contract Negotiations Continues!

On April 3rd, 2019 negotiations continued as we spoke about Safe Patient Handling and Workplace violence once again. Nurses continue to face challenges each and every day. Management will not negotiate any economics within the contract until non-economics are agreed and settled. We will continue to strengthen our solidarity and continue to fight!

Nurses should feel safe and secure while on duty providing care. Nurses should have the proper, reliable, credible equipment while ensuring patient safety. Continue your support!

Your Executive Committee has and will continue to fight to ensure a fair contract is negotiated and settled. Continue to stand in solidarity with each other to provide what we all know nurses have been fighting for, for many years!

Continue your support!

Show up at bargaining on **April 10th, Wednesday at 11:00 AM !**

In Solidarity,

NYSNA at BCHC Executive Committee
