

New York State Nurses Association at Bronx Care Health Center Bargaining Update #2

UNITED AND ORGANIZED FORCE TO FIGHT!

We have been ready, and we are prepared to fight! We've had two bargaining sessions and on November 26th we presented our bargaining proposals which includes improved staffing ratios with enforceability, improved workplace violence prevention and Improved Health and Safety, Wage increases, Retiree Health Benefits, be part of the NYSNA Pension fund and more. On December 20th, we discussed some of our non-economic demands with no agreements and they were unable to respond to our economic proposals.

Next round of negotiations will be at Grand Concourse and we need to show our solidarity and force. This is going to be a fight to get what we need for ourselves, our families and our patients!

In Solidarity,

NYSNA at BHC Executive Committee

What can we do?

- *Contact a Contract Action Team (CAT) member, NYSNA staff or Exec member how to become more involved.
- *Come to negotiation sessions for the full day or when you can during breaks.
- *Members to come to the bargaining sessions and testify.
